The diagram illustrates a table structure. A diagonal line runs from the top-left towards the bottom-right. The table has a header row and three data rows. The header row is the top-most row and is divided into four columns. The first column is the widest, followed by three columns of decreasing width. The three data rows below the header are also divided into four columns, with the first column being the widest. The table is positioned in the upper-left area of the page, with the diagonal line extending from the top-left corner towards the bottom-left corner.
